Apps or a Full Dinner!*

# What others are saying about their experience at the Barrel Factory for their corporate event

200 + Guests

Thank you so much for everything you did to make our 2019 Summit one to remember! People are still raving !

You and your team were wonderful and easy to work with. Can't say enough about our whole experience with your organization.

Also, sincere appreciation and thank you for your donation of a Lakeward Spirits gift basket – very generous!

Looking forward to holding another event at the Barrel Factory!

*Maria R. Mieczyjak*  
Chief Operating Officer  
One Buffalo Dental LLC

*The “great hall” loosely reminded me of the old Park Lane restaurant that was demolished (for what reason?) a number of years back. Remember that feeling when you walked into the large dining room? You just don’t come across these impressive old spaces anymore – they are usually built with too much drywall and don’t retain enough original wood and brick. In this case, the opposite is true. This place is very comforting in its raw state.”*

---

*If you are thinking of having an event somewhere, look no further!!!! You CANNOT and WILL NOT find a more beautiful venue with a more helpful staff than at the Barrel Factory/Lakeward Spirits!! Our guests could not stop talking about how wonderful it was with all of the exposed brick and original wood beams and woodwork, not to mention all the natural sunlight that filters in and the views of the grain mills. Gorgeous!!! THANK YOU!! - K. H. K.”*
