THE BURNS PUB & RESTAURANT SCOTCH WHISKY

CURATED BY: JONATHAN ODDE

ABOUT OUR WHISKY SELECTIONThis is not the largest selection in Colorado, or even the largest in the Denver-metro area. We simply don't have the space. But honestly, that's not what drives us. Each whisky is selected based on quality, uniqueness, and of course in a few cases, marketability. You will find knowledgeable experts on hand to help you select a truly satisfying spirit, so please feel free to call on one for recommendations, questions, or simply to chat. It's just what we do here. **HOW YOUR WHISKY IS SERVED**All of our whiskies, when not ordered in a cocktail, are served neat with a pipette of filtered water. It's assumed that you ordered the whisky to sip and allow the spirit to serenade you with the nuances and complexities the years of aging is intended to provide. Therefore, they are not served with ice (unless specified) as ice considerably restricts aroma, flavor and character. Likewise, they are not served as shots (unless specified) for essentially the same reason. With this in mind, if you wish to use ice or "shoot it", please specify this to your server.

SINGLE MALT SCOTCH "Single Malt Scotch" means the product of one distillery (Single) from 100% malted barley (Malt). Like all Scotch, it must be distilled, aged (at least three years), and bottled in Scotland.

CAMPBELTOWN

The only region that is just one small town, Campbeltown was a hotbed of illicit distilling and boot-legging before it was legalized in Scotland in 1823. At one time there were 30+ distilleries in a seaside town with a population of around two thousand people, solidifying it's claim as the "Victorian Era Whisky Capital of the World". All that changed in the early 1900s when quality declined, prohibition hit the United States, and other factors caused distilleries to close their doors for good in the 1900s-1930s. Campbeltown as a region was in danger of extinction from the whisky landscape. But Hedley Wright (owner of Springbank at the time) virtually single handedly reversed Campbeltown's dismal fate. Perhaps wiser from the suffering, Campbeltown now produces some of the finest whiskies in the world once again.

HIGHLANDS

The Highlands is separated from the Lowlands by a belt line that runs from Helensburgh to Stonehaven. The separa-tion is a result of English taxation (in the form of the Wash Act and Excise Act in the 1780s) and not a difference in styles, although the effects of the implementation of the act lead to a style variance. Effectively, they imposed heavier regulations on production in the Highlands at a lower tax rate than in the Lowlands. The end result was a large number of illicit distill-eries in the Highlands. So it didn't work out exactly as intended.

BLENDED SCOTCH

Blended Scotch is the best selling type of whisky in the world. A style created by William Usher, it essentially made Scotch a household word. These days, most (but not all) blended Scotch is intended to be served on the rocks or as a mixer. Unlike blended Scotch, blended malts are comprised entirely from malted barley. Often their quality actually exceeds that of single malts as some blenders bottle to a higher standard.
