

Hand-written letter from the desk of Fred M. Rogers (*Mr. Rogers*)

Sept. 25, 1978

Dear Brick, What a treat to hear from you and also to learn about Galifty's(that'sthewayIspell it in the scripts)! As a matter of fact I just made it up as a rhyme for "nifty". X the Owl always calls things he likes "nifty galifty". To think that someone took the latter part of that phrase and made it into a restaurant really tickles my fancy.

I must get there some day...
