

WARNING

Federal law prohibits disrespectful or otherwise rude behavior within the confines of this space. Unauthorized offenses will be subject to penalties and or ejection from the rad cocktail den that is Romeo's. The FBI is also.. involved.

Please tell our Maitre D's how many in your party. If you plan on any additions, they're literally here to try and make it happen, but if they can't, they can't. This is a seated cocktail bar space and we are trying to give a cool and fun experience to **EVERYONE** in the room.

Please let us know of any allergies, always. There's a lot of crazy stuff on this menu. Don't leave it up to chance.

Please try to order as many cocktails at one time as you are able to, and to keep your separate tabs to as manageable a minimum as possible. We want to help you out, but please also try to have some awareness of how many others we need to tend to. Multiple transactions, especially with bartenders, do take time. We still love you, we just want to spread that love to the whole room.
